**Write up's :**

18. Major Projects Undertaken in the past :

Prescripto – Doctor Appointment Booking Platform Full-stack MERN web app for doctor appointment booking with patient, doctor, and admin dashboards, authentication, and online payments. Live Link: <https://prescripto-frontend-verj.onrender.com/> Dynamic Table Data Management System Next.js-based dynamic data table with CSV import/export, sorting, pagination, column customization, and theme support. Live Link:<https://dynamic-table3.onrender.com/>

19. Which is your area/ subject matter of Interest and why? :

I am interested in building user-centric web applications that solve real operational problems. I enjoy working on practical systems involving structured data, secure backends, and modern web frameworks. My interest comes from hands-on experience in full-stack development, where I have built end-to-end applications with a focus on usability, reliability, and scalability.

20. Why would you like to join FSSAI for Internship? :

I would like to join FSSAI as an intern to gain practical exposure to how technology and data are used in regulating food safety at a national level. FSSAI's role in policy implementation, compliance monitoring, and public health makes it an ideal environment to understand real-world regulatory systems. This internship will help me apply my technical skills in a meaningful public sector context while learning how large-scale government systems operate.

21. Month of Commencement of Internship :

January 2026

22. Upload Photo :

(Please upload only jpg or png file of maximum 500 KB size)

Photo Uploaded

23. Upload Resume/Document, if any :

(Please upload only PDF or word file of maximum 2 MB size)

Resume Uploaded
